13mm Foam Connection Seal

Installation Instructions

1. Turn off water, flush cistern and remove cistern lid.
2. Disconnect the water supply.
3. Undo wing nuts, remove cistern fixing bolts and remove cistern.
4. Remove old foam seal.

5. Peel off adhesive backing from new seal and securely attach to cistern base.
6. Replace cistern, resealing wing nuts and cistern fixing bolts and re-connect water supply.

Always ensure work is carried out by a licensed plumber.
Warranty claims can only be made with proof of installation by a licensed plumber.
