

Radiant R180 1.75 End Bowl

Suitable for item codes: R180.1L and R180.1R

This pack contains the following components to assist in the installation of your product:

- Fixing Clips
- Sealing Tape
- 2 x 90mm Waste Basket

INSTALLATION INSTRUCTIONS

1. Finish cutting out this template with a knife or scissors.
2. Position the template on the bench top and draw a pencil line against the edge of the template. Then check the size against the overall cutout dimensions before cutting the bench top.
3. Following the inside edge of the pencil line carefully cut out the hole in the bench top. An exact cut is required to obtain best fit.
4. For a normal thickness benchtop the enclosed fixing clips should be suitable. See Figure A. Lightly hammer the fixing clips onto the clip brackets at equal points along the product rim as shown in Figure B.
5. Position the product in the cut out hole so that it is properly aligned. Check that the sealing tape will seal evenly around the edge of the hole.
6. Remove the product and install the waste assemblies and the tap (if required). It is suggested that silicone sealer be used between the waste grate and hole.

7. Remove the protective backing from the sealing tape, apply a continuous bead of silicone sealer between the sealing tape and the edge of the product. Quickly place the product in position.
8. Close the fixing clip hinges as shown in Figure C.
9. Tighten the fixing clips evenly, using a low torque setting on any electric screw driver used. Overtightening may strip the thread.
10. Plumb up the tap and waste fittings.

NOTE: For thin benchtops special clips (A0167) are available.

CUTOUT TEMPLATE
DIMENSIONS - 1206 x 456mm
To use this cutout template for benchtops, print 1:1 on a large format printer
Corner radius 108mm
For installation guide print to fit on paper size.
