STYLUS WDI Dual Flush Bezel Button

Installation Instructions

1. Fit the Button assembly into the cistern lid while keeping the half flush line to the left, as shown.
2. Screw the nut on the button assembly from underneath the lid.
3. Check the orientation of the button ensuring the HF/FF markings on button are perpendicular to the back wall.

4. Hand tighten the nut fully. DO NOT OVERTIGHTEN.

NOTE: Never use abrasive or harsh chemical cleaners on the button or lid. Wipe with warm soapy water to maintain decorative finish.

Always ensure work is carried out by a licensed plumber. Warranty claims can only be made with proof of installation by a licensed plumber.
